

Tunable F-center lasers

William G. Clark, Ph. D

(Burleigh Instruments, Inc)

A brief review of the physics, properties, and applications of the tunable F-center laser will be presented. Characteristics of the laser operating in a pulsed mode—in the nanosecond and picosecond pulse width regimes—will also be discussed.

可调谐色心激光器

William G. Clark, Ph. D

(伯利仪器公司)

简要综述了可调谐色心激光器的物理学、性质以及应用。还讨论了激光器在毫微秒和微秒脉宽范围内以脉冲形式运转时的特性。
